Hunter Equine Centre

Transported Chilled Semen Request Contract 2022

Information for mare owners

Semen requests must be made by 5.30pm EST the day before collection via email . Please place a tentative order, to be confirmed the next day by 8.30am EST, if you are uncertain as to the final order. Hunter Equine Centre provide a chilled semen collection and dispatch service for seasonal resident or walk-in stallions. Routine collections are made Monday – Friday mornings, however we endeavor to meet all requests made outside these times. Additional charges may be incurred if semen is urgent or non-routine freight is required. Failure of shipments to meet delivery deadlines, and thereby compromise insemination schedules, is not the responsibility of Hunter Equine Centre. Weekend and public holiday consignments are particularly difficult to secure with regional freight companies and any such shipments are taken on risk by the mare owner.

Fee Schedule

2022 Semen Collection, processing and packaging fee \$295 (GST incl.)

PLUS

Freight charges as follows:

Toll Priority Overnight - NSW	\$112 (GST incl.)
Toll Priority Overnight - Interstate	\$203 (GST incl.)
Qantas freight Priority – Airport to airport – Guaranteed next flight	POA

This fee includes the collection and processing of the semen and standard freight to the mare destination. Please make sure you have made the appropriate bookings and payments with the stallion owner prior to a semen request being lodged. Authorisation for shipment will be sought from the stallion owner prior to semen being dispatched. Please return semen transport shipper boxes in a timely manner.

A semen report is supplied with each shipment and a reference sample of each collection is retained by HEC for quality control purposes. Please contact the practice as soon as possible if you or your veterinarian have any concerns regarding the quality of the semen or condition in which it arrived.

Unless otherwise stated by the stallion owner, all costs for the collection and dispatch of semen are the responsibility of the mare owner . No semen will be dispatched until payment has been received by Hunter Equine Centre.
